##### Material Specification

Bottom Sash Knob:	Zinc Die Cast
Coatings:	Hardex Chrome, Hardex Bronze, Hardex Gold, Hardex Graphite, Hardex Pewter, Antique Black, Premium Satin, White and Black.

#### Maintenance

For continued protection of the quality finish and appearance, we advise routine cleaning of all our external hardware. We recommend wiping it with a clean cloth soaked in warm water and mild detergent every month. Please refrain from using heavy-duty cleaners, containing Chlorine or Potassium. Moving parts should also be lightly lubricated using a light non-acidic mineral oil (e.g., "3 in 1") at least twice per year. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

#### Packaging

Sash Knob: Individually bagged, 100 per box
